

SEBO C-SERIES

MADE IN GERMANY

SUPERIOR DESIGN, PERFORMANCE AND VALUE: SEBO C-SERIES

*Pure Performance*

# THE SEBO AIR BELT C DESIGNED BY CLEANING PROFESSIONALS

Professional users worldwide prefer SEBO, with good reason! Our success is due to our innovative products and our strong focus on quality. Modern technology, state-of-the-art design and consistent customer focus are found in all SEBO products. Try a SEBO canister vacuum cleaner and you will be impressed by the outstanding cleaning power, its first-class filtering system and, of course, ease of use.

### Easily accessible, full-size attachments -

On-board attachments include the dusting brush, the crevice tool and the upholstery nozzle.

### Ergonomic handles -

The SEBO air belt C handles are ergonomically designed and positioned to reduce wrist and arm fatigue. The C3.1 handle is even more elaborate with an additional swivel built into the handle.

### The air belt shock absorber -

The air belt acts as a bumper guard. The soft foam bumper with its durable covering protects your furniture, walls and vacuum from damage.

**Replacement air belt covers** - Personalize your canister with a replacement air belt cover available in a variety of patterns and colors. Pattern 10 is the standard air belt cover provided with your canister.

**Combination Nozzle -**  
Optional accessory tool for the C2.1 and the C3.1.

### Special features of the SEBO air belt C-Series Vacuums:

- Durability - SEBO canisters are made to last
- S-Class hospital grade filtration system
- Rubber coated wheels prevent damage to floors and rotate 360° for easy maneuverability
- Quick-release for ease of brush head change
- High-quality telescopic tubes that provide convenient handle-height adjustment
- Large control switches for power & cord retractor
- FULL-SIZE on-board tools
- FULL-SIZE dust bag
- 35-foot operating range

## SEBO AIR BELT C2.1

The SEBO air belt C2.1 is a straight-suction vacuum that comes with two specialized standard accessory tools: the Turbo Head for the cleaning of carpets and rugs and the Parquet Brush for use on hard floors.

Turbo Head

Parquet Brush

# THE SEBO AIR BELT C POWER AT YOUR FINGERTIPS

The SEBO air belt C3.1 allows for quick and convenient connection of telescopic tubes, accessory cleaning heads and on-board tools. The handle also includes a power control slider that adjusts the suction up or down for normal to more delicate cleaning tasks.

The power control slider takes the suction power from 0 to 1250 watts.

## SEBO AIR BELT C3.1

The SEBO air belt C3.1 includes an electrified telescopic tube designed to accommodate the ET-C, ET-H, ET-1 or ET-2 power head for thorough brushing and optimal cleaning of your carpet. The C3.1 also comes standard with the Parquet Brush for use on hard floors.

Parquet Brush

SEBO air belt C3.1

Deep clean your carpet with a SEBO power head. SEBO power heads are virtually maintenance free, and the electronic overload protection feature extends belt life by automatically shutting off power if a brush roller jam occurs.

### CHOOSE THE POWER HEAD FOR YOUR C3.1.

**The SEBO ET-C Power Head** - The ET-C power head delivers deep cleaning and durability. The wider L-shaped head allows for optimal cleaning and maneuverability around furniture and under cabinets. The extension side of the head cleans to the edge. Warning lights and brush wear lights are conveniently located on the top of the power head. Instead of a brush roller, the ET-C uses a brush strip that slides in and out for fast and easy replacement.

Foot pedal releases the swivel head.

Brush indication and warning lights are easy to see.

**The SEBO ET-H Power Head** - The ET-H power head includes variable height adjustment and delivers powerful cleaning effectiveness. The patented new design offers dual-edge cleaning and a manual brush control for optimal cleaning from one type of flooring to another. The steering mechanism built into the swivel neck helps you to clean easily around obstacles.

The brush rollers are removable with the push of a button.

**The SEBO ET-1 and ET-2 Power Heads** - The ET-1 and ET-2 power heads deliver deep cleaning and flexibility. The ET power head brush action aggressively cleans carpeting. For hard floors and delicate rugs, the brush roller may be switched off by pressing the power switch/indicator on the top of the head. The wider L-shaped head allows for optimal cleaning and maneuverability. The extension side of the head cleans to the edge. The SEBO ET is available in two sizes to fit your needs:

ET-1: 12 inches

The power switch/indicator allows the brush action to be switched off for gentle, brushless cleaning.

ET-2: 15 inches

# THE SEBO AIR BELT C FILTRATION

## The 3-step filtration system:

First, the three-layer, full-size filter bag (a) collects the vast majority of the debris.

Then, any remaining particles are collected by the hospital-grade microfilter (b).

Finally, the micro-exhaust filter (c) cleans the exhaust air that the vacuum emits. The air belt (d) disperses the filtered exhaust air around the canister which provides a quiet, gentle air flow.

The S-class filtration system, as described above, results in 99.9% effectiveness to 0.3 microns\*, making the SEBO air belt C vacuums the perfect choice for customers with allergies and asthma. A charcoal microfilter is available for odor removal.

\*Measurement SLG/Chemnitz  
SEBO uses only fiberglass-free filters.

**Soft textile air belt  
shock absorber**

**Super quiet air exhaust all around!**

## SEBO AIR BELT C TECHNICAL DATA\*

## SEBO AIR BELT C WARRANTY

Vacuum motor	1250 Watts, 10.6 Amps	Cord Length	22 feet
Air flow	170 CFM	Filter Bag Capacity	1.4 gallons
